Same sex bliss

Q. We're planning our wedding! How do we start?

A. A wedding is a wedding, regardless of the couple! But, there are special legal unknowns to consider when it comes to same-sex nuptials. The couple should first consult with a lawyer and/or accountant who understands the local, state and federal landscape. It's important to understand the legal and tax ramifications of getting married in or out-of-state, and what legal rights won't convey so that additional documentation (like an advance health or financial directive) can be drawn up.
